

The **Sustainable Living Roadshow (SLR)** is a caravan of educators and entertainers who tour the country in a fleet of renewable fuel vehicles to empower communities and individuals to utilize sustainable living strategies for a healthier planet. Visiting k-12 schools, university campuses and community festivals across the United States, the caravan sets up off-the-grid eco-carnivals with experiential learning villages, featuring workshops, speakers and entertainment. We are putting the party back into politics and un-paving the road to sustainability!

The goal of the Sustainable Living Roadshow "**Be the Change**" Tour is to empower individuals and communities with the bioregional solutions for sustainability, including: local power generation, community based food production, natural building, conscious consumer choices, progressive public health policies, and alternative transportation.

Information

- 20-40 educators, activists and entertainers bring the largest green caravan across the nation!
- All events are off the grid and zero waste; all tours are petroleum free; all food is local and organic!
- Through our root organization, the Clean Fuel Caravan Coalition, we have over 700,000 miles of collective touring experience through the US, Central America and West Africa
- SLR is a national tour with localized focus, creating a platform for local information and organizations to shine, while highlighting national strategies, companies and organizations with proven track records.
- At a time when global warming, peak oil and economic recession are at the forefront of the American consciousness, the SLR provides *solutionary* entertaining and positive ways to live more sustainably.
